

### *Gilwood Nestbox*

- Premium cedar construction throughout. Door secured by means of nail or screw. Sides and roof secured by use of galvanized screws , construction adhesive used at roof line.
- Easy house sparrow trapping with Universal style trap.
- Easy house sparrow removal - no extra items required.
- Only 1 or 2 lumber dimensions required -1" x 4" and 1" x 8".
- Eggs and young are not inclined to fall out of box during monitoring.
- Light weight - at 4 lbs. is easily and safely mounted on 1/2" metal electrical conduit which greatly reduces the problems of ants, squirrels, raccoons; and, more importantly, it reduces the chances of coming in contact with the Hanta virus thought mice and their nests.
- Easy blowfly larvae removal.
- High Bluebird desirability, highest of all tested.
- A dry solid long lasting nest cavity is promoted by the use of screws and construction adhesive.
- Easy door removal - replacement with similar or totally dissimilar entrance options hinged with screws at pre-drilled locations.
