Dear Mr. Gilbertson,

I really enjoyed talking with you today. Thank you for sharing your knowledge and advice. I am glad there are people like you, who do this research and make these products available to everyone. Last Spring, after fighting a losing battle with the house sparrows, we had much success with your trap in our wood box, and eventually fledged 2 bluebirds. This year, we will be well armed, and we will "even the score."

As we discussed, please send:

3 sparrow traps

3 extra "clips" for disarming the trap, and

3 reducer plates.

I will try your idea of wood "bait boxes" with the reducer plate. Enclosed is my check for

This is the first time I have tried the PVC box, a gift from another bluebirder. At first I was hesitant to use it, because my small arthritic hands couldn't seem to get a good grip to remove the box. However, once the box is mounted, it is easy to take on and off using both hands.

Thank you for all the things you do for the bluebirds!

Have a great Bluebird Summer!

Barbara
