Steve, you can use my letter on your website, but I would like to have only my first name and city and state put on the website. Please leave off my last name and street address.

I had 2 successful bluebird nestings last year using your box and I have already had one successful nesting this year in 2009, and the birds are starting a second nesting. I have had no sparrow problems since I started using your boxes. Thanks for a good design!

Jim

Steve, I was very pleased with a PVC nestbox that I purchased from you earlier this year. I had two successful bluebird nestings in the box this past spring and summer.

I had previously used the traditional cedar bluebird boxes, but I always had trouble with house sparrows driving away the bluebirds.

With your PVC box, I had no trouble with house sparrows this past year.

Thanks,

Jim
