

Hi,

I wanted to send you a couple pictures to show you how well your nestbox worked for me. Three chicks fledged in the first nesting from March to May. There were four eggs in the box as of today for the second nesting this year. This is my first try with bluebirds and I have plenty of house sparrows around. The house sparrows never touched this box. A house wren threw sticks in there in between the two bluebird nestings but I guess the lady wren didn't like it. He never came back after a few days. I cleaned out his nest and the bluebirds had taken over the box again within a few hours. I knew I had bluebirds around because they were hanging out at my birdbath but I couldn't get anything but sparrows in my boxes until I put up your box. Thanks so much.

Regards,

A handwritten signature in cursive script, appearing to read "Steve Hule". The signature is written in black ink and is positioned below the "Regards," text. There is a faint horizontal line underneath the signature.
